Other Placements and / or Employment in Schools	<b>Cullercoats Primary School</b> , North Tyneside (July 2013 / January - April 2016)

## The strengths I have within my teaching:

Core Subjects	Physical Education	Other
My core subject knowledge has developed dramatically during my PGCE year. I have taught Numeracy, Literacy and Science in KS1 and KS2. This has allowed me to work with a variety of pupils from different backgrounds and different age groups. I have gained greater insight into the core subjects through discussions with my mentors and by attending a range of CPD courses, including; Literacy (Talk4Writing) and Numeracy (Maths Mastery). This has allowed me to develop and challenge not only myself but the pupils I have taught. In particular, I have significantly developed my Literacy knowledge and now have a strong understanding of the areas within the curriculum. Numeracy is a topic that I consider to be a strength within my teaching.	My knowledge of Physical Education is a strength based on my undergraduate degree and the CPD opportunities provided through my PGCE; including a range of NGB awards. I am confident teaching a wide range of activities to all the age groups in a primary school environment and understand how to stretch and challenge every pupil within the class. I have had the opportunity to learn from professionals with a huge amount of experience and this has allowed me to develop my own teaching and my approach to Physical Education and how I teach it. <b>NGB Awards:</b> British Gymnastics Core Proficiency, England Netball High 5, RFU Kids First Tag/Rugby Ready, FA Primary Teachers Award, YST Bupa Start to Move, YST Matalan TOP Sport, Sainsbury's Inclusive Practice in PE, Level 1 Street Games, Safeguarding & Protecting Children, Disability and Inclusion.	I have gained a fundamental understanding of the delivery of Computing within primary schools, in particular the need for e-safety and understanding how to code and how to apply this to my own teaching. In my Host School I have attended events with the Student Council which has given me the opportunity to understand some of the ideas pupils have and how the school works with them to ensure they have a say. I have attended parents evenings and been given the opportunity to communicate with parents about their children. I have developed a range of behaviour management strategies and can implement these effectively in my lessons, ensuring pupils are engaged, focused and make progress. I work hard to deliver fun and engaging lessons.

## My personal skills and qualities:

I am an extremely good communicator. I am able to work independently but thrive working within a team; this is something I have developed throughout my training year. I work well when things are tough as I enjoy pushing myself to the limit. I am extremely motivated, and I put 110% effort into everything I do. I thoroughly enjoy working with children and I gain an immense deal of satisfaction when I see them happy and learning within a teaching environment. I have grown up observing several brilliant teachers who have inspired me to pursue a career in teaching. I am passionate about becoming a teacher and will make sure I do everything I can to succeed and learn to make myself the best teacher I can be. My leadership qualities are key skills I feel I have developed throughout school as I have captained sports teams as I have grown up and this is an area I feel that I have been able to develop throughout my PGCE training.

## My other interests and hobbies:

I am sports mad. I absolutely love watching sport daily, it doesn't matter what sport is on the TV I will watch it. I am a huge football fan and go and watch my local team Newcastle United home and away. I also like to play golf and have played for a number of years; it is a sport I love as it allows you to be outside for 3 to 4 hours and relaxes your mind. I also enjoy spending time with my friends.

## Preferred location:

North East
