**My personal skills and qualities:**

Competing in sport at a high level and also my time at university has allowed me to develop an array of skills and qualities. One of the most important is the ability to work as team, not only to be successful individually but also to be a support system for others. During my time at university and during my PGCE I have had a part time job, so another skill I have developed is to be able to prioritise tasks and manage my time effectively. My friendly personality makes me a very approachable person; combining patience with my imagination allows me to solve problems. My willingness to reflect on my practices, further allows me to develop as person and also a teacher. I am able to build positive and strong relationships and rapport with students and staff very quickly. Due to the influence extra-curricular had on my time at school, I feel very passionately about the positive benefits and this is an area I am very keen to contribute to during my NQT year. As a sporting captain I have developed excellent communication skills; communicating with fellow team mates and also my coach. In my part-time role as Customer/Sales Assistant, I have been able to develop my confidence and conflict management.

**My other interests and hobbies:**

I am an all-round sport enthusiast, driven to achieve my personal goals. Being surrounding by sport from a very a young age, has developed my ability to further stretch and challenge myself. Aside from playing sport, I enjoy watching other sports either on TV or as a spectator within a stadium. When I am not playing or watching sport, I like spending time socialising with friends and family and also travelling. I have been lucky enough to travel to some amazing places, such as South America, Europe and North America. Within the next few years I would love to travel to Asia – especially Tokyo!

**Preferred location:**

North East and North West
