My personal skills and qualities:

I have displayed strong communication skills with various groups and communities. Completing my British Sign Language qualification has enabled me to gain a deeper understanding of the importance of being able to adapt communication methods to suit the individuals I am working with. Undertaking SEND placements has enabled me to gain knowledge relating to the use of non-verbal communication with children such as Makaton and PECS. I have also developed vast subject knowledge surrounding the current climate of physical education and the national curriculum, as well as theoretical aspects of pedagogy and child development. I strongly believe in the use and benefits of reflective practice and the application of this to my teaching to support professional development. I am able to build rapport with students quickly to create a learning environment grounded in mutual respect.

My other interests and hobbies:

As an individual who has a strong passion towards sport and physical activity, my spare time is often spent participating in swimming and CrossFit. I enjoy taking on new challenges and always strive to achieve goals. Aside from sport I like to spend time with family and friends; particularly in the outdoors. In my free time I am also a keen acoustic guitarist; which I find to be a great way to be creative and wind-down from an active lifestyle!
