My personal skills and qualities:

I have a real passion for sport and physical education which I have developed throughout my academic and sporting career. My interest in sport has surpassed just participating; it has developed into officiating, coaching, assisting and supervising. These experiences have allowed me to develop many skills that apply to my career as a teacher such as teamwork, communication and self-belief. My interest in sport helped me achieve success when studying physical education at GCSE, BTEC Level 3 and University. My achievements in sport and education are down to my hardworking attitude; whether it be completing a dissertation or winning the league for a football team. Graduating with a 2:1 in Sports Development, gave me an insight into how school sport and physical education can be further improved in schools and I am keen to be part of this development. I have gained the unique experience of working in a variety of schools with different approaches to physical education which I can take in to my NQT year. One of my key skills is that I am creative; I can design and deliver lessons that are 'outside the box' and engage children, this was identified as a strength on my first placement. I am passionate about extra-curricular activities and believe that physical education goes beyond lessons in order to develop lifelong participation. Another quality of mine is my determination; throughout my life, I have worked hard to achieve my goals and developed this quality by persevering when I have encountered any obstacles.

My other interests and hobbies:

Sport takes up most of my spare time through playing, coaching or spectating. I enjoy watching Newcastle United and my local side Ashington Colliers and keep promising myself to go to Wimbledon to watch the Tennis Championships. Another interest is travelling; I have worked and travelled in America, including New York and Chicago. Music is a passion of mine; I love going to concerts and singing anything by Robbie Williams on Karaoke.
