My personal skills and qualities:

I take an interest in experiences beyond the PE curriculum. While at school I took part in many trips abroad as part of the subjects I studied and value the importance of residential to help pupils develop their knowledge as well as developing character. I have experience working with SEND children and teenagers as I work for a charity that supports young people with a range of disabilities including autism allowing me to develop into a patient, adaptable and understanding practitioner. Having an older brother with severe learning difficulties and autism has given me a depth of understanding of the challenges faced by families living with disabilities. It has also shown me how people with disabilities can still make a strong contribution despite needing a great deal of support. Understanding, humour and tolerance but without ever patronising have been key to developing and maintaining a great relationship with a brother who is full of fun but very aware of his limitations. I believe I am hard working and well organised but also motivated to be the best teacher I can be.

My other interests and hobbies:

I love playing golf. I am also a passionate Newcastle United fan and enjoy Formula 1. Away from sport, I often enjoy the cinema and eating out at restaurants, as well as relaxing on the PlayStation from time to time. I go to the gym as frequently as possible and try to stick to a training programme to build strength and endurance, as well as rehabilitating my knee following surgery.

Preferred location:

North East
