## My personal skills and qualities:

I am reliable, resilient and conscientious, always taking pride in ensuring my lessons are creative and engage students. I am an approachable individual who can build positive relationships with ease, supporting the positive learning environment that I am committed to providing. My professional behaviours are acknowledged school wide, through taking my own tutor group, supporting break and lunch duties, as well as after school clubs and school fixtures. I ensure that students are aware of their progress, through the use of detailed questioning, plenaries and feedback as well as using a variety of assessment methods within my lessons.

## My other interests and hobbies:

My work within grassroots football is something I am extremely committed to and I aim to continuously increase the number of girls and women taking part in football within my local area. As well as this, I enjoy playing for a local football team and find this as my way of relaxing and keeping physically active. I have recently taken up hot pod yoga and am also interested in cooking and creating healthy meals in my own time.
